

MALANA POWER COMPANY LIMITED

Corporate Social Responsibility Policy

COMPANY'S VISION

To actively contribute to the sustainable social and economic development of the communities in which the Company operates. In doing so, build a better, sustainable way of life for the weaker sections of society and raise the country's human development index.

MAKING A DIFFERENCE

Before Corporate Social Responsibility appeared on the anvil and found a place in corporate sphere, it was already textured into the Company's Group's value systems. CSR mandates investing a part of Company's profits beyond business, for the larger good of Society.

While carrying forward this philosophy, our legendary leader, Shri L.N. Jhunjhunwala, weaved in the concept of sustainable livelihood, holding a view that it was unwise to keep on giving doles endlessly. He would say, "Give a hungry man fish for a day, he will eat it and the next day, he would be hungry again. Instead if you teach him how to fish, he would be able to feed himself and his family for a lifetime."

Taking these practices forward, the Company's Chairman and Managing Director Shri Ravi Jhunjhunwala institutionalized the concept of triple bottom line accountability represented by economic success, environmental responsibility and social commitment.

The Company's community work is a way of telling the people among whom it operates that "We Care".

PROJECT IDENTIFICATION MECHANISM

All projects are planned in a participatory manner, in consultation with the community, literally sitting with them, after estimating their basic needs. The Company takes recourse to "participatory rural appraisal", which is a mapping process. Subsequently, based on a consensus and in discussion with the village panchayats, the Company prioritizes requirements. And thus a project is born. Implementation is the responsibility of the community and the Company's team, as is the monitoring of milestones and the other aspects. Monitoring entails physical verification of the progress and the actual output of the project.

Village meetings are held periodically to elicit feedback on the benefits of the community programmes and to explore the areas where these are needed to be beefed up. The Company tries and ensure, despite enormous hand-holding to be done in the initial stages, the projects become sustainable over a period. Once that stage is reached, the Company shall withdraw itself from the operating scene. The aim is to avoid build a culture of dependence, instead, the move would be towards self-reliance.
